8.1.2 For purposes of this section the following definitions will apply:

“Full time employee” shall mean: (1) an employee that is regularly scheduled to provide thirty (30) or more hours of service per week or in excess of one hundred and thirty (130) hours of service per month and is not classified as a seasonal employee; or (2) an employee that averages thirty (30) or more hours of service per week or in excess of one hundred and thirty (130) hours of service per month during an applicable measurement period.

“Hours of service” shall mean hours when work is actually being performed; and hours where no work was performed, and the employee was using leave time.

“Leave time” shall mean an employee’s use of any of the paid leave benefits defined under the terms of Cedar City’s personnel policy. Unpaid leave will not be considered leave time unless the unpaid leave qualifies as special unpaid leave time and it is anticipated that the employee shall return to service once the leave time is used.

“Measurement period” shall mean either the initial measurement period or the standard measurement period. The initial measurement period shall only be used for the first year of employment for an employee that is hired and classified as a variable hour employee. All other references to the measurement period shall refer to the standard measurement period. The initial measurement period shall mean a continuous twelve (12) month period beginning the first day of the month

following the employee's date of hire. The standard measurement period shall mean the same twelve month period that is designated by law as the City's fiscal year.

"Non-service" shall mean a period of time when an individual is not employed by Cedar City. Non-service is different than leave time in that during leave time there is a mutual expectation that the employee is still employed by Cedar City. During non-service time there has been an event that has terminated the mutual expectation of continued employment. Examples of such events include, but are not limited to, retirement, termination of employment, layoff, quitting.

"Part time employee" shall mean an employee that provides twenty eight (28) hours of service per week or less.

"Seasonal employee" shall mean an employee that is employed for a maximum of twenty six (26) weeks during a twelve (12) month period. For purposes of considering provision of health care benefits there is not a limit on the number of hours of service per week a seasonal employee may provide. Seasonal employees shall not qualify for health care benefits paid by Cedar City. All provisions of the Fair Labor Standards Act, and other applicable state and federal law are not impacted by this definition of seasonal employee.

"Special unpaid leave" shall mean unpaid leave taken by the employee pursuant to the Family and Medical Leave Act, the Uniform Services Employment and Re-employment Rights Act, and unpaid leave for jury duty.

"Stability period" shall mean a period of time equal in length to the immediately preceding measurement period during which if the employee continues to work for Cedar City, and it was determined based on the measurement period that they qualify for health care benefits, then the City in accordance with its practices and policy shall provide health care benefits.

"Variable hour employee" shall mean an employee that is not a full time employee, part time employee, or seasonal employee; and that by designation or practice works variable hours. Employees that were originally designated as part time or seasonal and that work more hours than originally planned may be reclassified as variable hour employees. Variable hour employees shall have their hours of service measured by the measurement period and if they qualify for health care benefits receive health care benefits during the stability period.

8.1.3 Subject to yearly budget allocations and in compliance with all other provisions of State and Federal Law, Cedar City shall offer health insurance coverage and pay the health care insurance premiums for all full time employees. 8.1.5 For employees other than variable hour employees, when determining the hours of service an employee provides to the City the City shall use the actual hours of service provided by the employee.

For employees that are either pre-determined to be variable hour employees or that become variable hour employees during the course of their employment the number of hours of service provided to the City shall be determined by using the actual hours of service provided during the measurement period.

In determining the number of service hours provided by variable hour employees during the measurement period the City shall average the hours of service per week during the measurement period excluding the special unpaid leave period. If the average number of hours of service equal or exceed thirty hours, then the City will provide health insurance and pay the associated premiums during the stability period.

8.1.6 If the City hires an employee that has previously provided hours of service to the City these employees shall be classified as either newly hired employees or as a continuing employee. An employee that is re-hired after twenty six (26) consecutive weeks or more of not working for the City is considered a newly hired employee. An employee that is re-hired after less than twenty six (26) consecutive weeks is considered a continuing employee.

Newly hired employees shall not receive credit for hours of service previously worked for the City.

Continuing employees shall receive credit toward the applicable measurement period for hours of service both prior to the break in employment and after the break in employment.
